

LCS Mask Exemption/Exception Policy

It is the policy of LCS that any mask or facial covering exemption/exception must be written by the student's or staff member's primary care physician who has seen the student or staff member as a patient within a year from the date of the written exemption/exception.

If the student or staff member does not have a primary care physician, any exemption/exception must be written by one of the following who has seen the student or staff member within the last month

1. an urgent care/emergency room physician
2. a physician at a public health office such as Riggs Community Health
3. an appropriate licensed specialist

As of September 22, 2020 any student or staff member, whose current exemption does not meet these criteria, shall have until December 18, 2020 to present a new exemption/exception to LCS administration that meets the criteria outlined above.
